RE: Tree Trimming

Tree trimming within the subdivision has been scheduled for May 12, 2020 (Tuesday) and May 13, 2020 (Wednesday). In order to provide safe access for the tree trimming we ask that you please not park your vehicles in the driveway or on the makai side of the street. The trees that will be trimmed are next to the driveways and the makai side of the street. You can park your vehicles, or have your guests park, on the mauka side of the street while the trees are being trimmed.

We appreciate your cooperation. Thank you.
